

ARMANDAS LATANAUSKAS

Web Developer

Parko g. 99-29, Panevėžys, Lithuania

+37067843622

armandasdarbinis@gmail.com

Nationality *Lithuanian*

PROFILE

I'm a web developer who works across the full stack—building React and Next.js apps with Typescript on the front end, and hooking them up to MongoDB, MySQL, or whatever database fits the job. I like creating components that are actually reusable and back-ends that don't fall apart when things scale up.

EMPLOYMENT HISTORY

❖ **Web developer, RoundedSQ** Nov 2024 — Dec 2024
Maribor, Slovenia

- Independently developed and implemented **CRUD operations** using **Next.js**, **Prisma**, and **FormData** for handling form submissions.
- Built new features for a custom **Portfolio/CMS website**, allowing dynamic creation and management of portfolio projects and content.
- Implemented functionality for displaying portfolio items, viewing **blog posts**.
- Managed all client-side and server-side logic within the Next.js framework without any external APIs.
- Handled the entire development process solo, including planning, coding, debugging, and deployment.

❖ **Web developer, Weborigo** Nov 2025 — Dec 2025
Budapest, Hungary

- Implemented new features and functionality for the company's websites using **React** and **vanilla JavaScript**.
- Improved existing components, fixed UI issues, and optimized user interactions.
- Collaborated with the development team to plan, build, and ship updates efficiently.
- Used **Git** for version control, working with branches, pull requests, and team-based workflows.

EDUCATION

❖ **Kauno Informational Technology School** Sept 2023 — May 2025
Qualified javascript programmer Kaunas, Lithuania

Graduated as a Qualified JavaScript Developer, worked with Fetching API'S, building CRUD operations, and making front-end interfaces with back-end databases for CRUD

SKILLS

React.js	MERN
Next.js	Very little PHP
Prisma ORM	Typescript
MongoDB	MySQL
